ENTERTAIN

## “THERE’S BEEN A MURDER!”

With BlueSky Experiences Murder Mysteries you have the opportunity to interact or sit back and solve the murder.

We have two types of fun murder mysteries to choose from. Our traditional murder mystery with fully trained professional actors or our interactive murder mystery where the dinner guests adopt the persona of all those involved - including the murderer!

With a variety of stories and plots to choose from we will make sure you have a murderous time!

If you want to try something a little different, we can write a story specifically for you or your company with real characters, but don't shoot the boss!

This event is usually during dinner and will last 2 hours.

Numbers Required: 10 or more
