MAKING YOUR
CONFERENCE
A COMPLETE
SUCCESS

risky business

NOTHING IS LEFT TO CHANCE

A new team-building concept based on Stock Market trading. Teams beg, borrow and steal to acquire inside information on future market conditions as they make investment decisions and formulate a winning strategy.

OBJECTIVE

The winning firm is the one that accumulates the most money within the allotted playing time, and the emphasis is on teamwork. In addition to mastering general trading procedure and making imaginative use of information, players also need to take account of unexpected economic shocks that can create havoc with stock prices and exchange rates.

BENEFITS FOR YOUR TEAM

Group decision making in a fast-moving and stimulating environment makes for effective teamwork and bonding.

Bring out your inner tycoon, and take your chances on the road to riches.
