Creativity and teamwork - it's a snap!

OVERVIEW

Using imagination and artistic flair teams need to compile stories and pictures before the fast approaching deadline for the BlueSky News Today. Teams are given the headline stories, Props, cameras, disguises, clues and fun money. They must then use their strategy and tactics to negotiate and deliver the top story.

OBJECTIVES

Your teams will generate a sense of fun and togetherness united in their quest to achieve the top story. Produce the BlueSky News Today with the 10 headline stories; the content is up to you.

BENEFITS TO YOUR TEAM

An action packed creative session incorporating the whole team. Your team's ability to influence decisions and develop their creative thinking and imagination will be rewarded.

“Given the exceptionally high scoring for the event, it's clear that the time invested by BlueSky in its organisation paid off. I would have no hesitation recommending BlueSky.”

The Guy Robertson Partnership

ISSUES & SKILLS ADDRESSED:
