

Bring out the wild side in your team!

OVERVIEW

The Ultimate Eco zone, incorporating its own Eco Village in a stunning, diverse and secluded woodland surrounded by natural beauty abundant with flora and fauna. The Eco zone provides a stimulating team working experience allowing teams to work closer together as well as becoming closer to nature and their immediate surroundings.

OBJECTIVES

On arrival at the Eco Village teams will first be introduced to all the flora and fauna in the surrounding area, taught how to make fires and cook in the wild as well as build furniture, tools and shelters all from natural materials in the surrounding area and woodland. The Eco Zone challenge will culminate with teams putting all their newly found wisdom literally in to the melting pot and cooking up a wilderness recipe on their very own camp fire.

BENEFITS TO YOUR TEAM

The team will be wholly stimulated in this exhilarating team working event, learning new skills, developing their understanding of their inner self as well as team spirit and comradeship, in a truly educational and safe natural environment leaving the team fully invigorated and energized.

“Built great team spirit, improved communication amongst colleagues and was generally filled with lots of fun and laughter. Thank you for all your hard work bringing together an excellent team building day at short notice.”
